### SECTION 4: First aid measures

---

#### 4.1 Description of first aid measures

##### Inhalation

Acute effects following exposure to this product via the inhalation route are not anticipated during normal handling and use.

##### Skin

This product is not intended for skin use. However, it has been dermatologically tested and approved safe for contact with skin. The use of gloves is recommended for prolonged use. If irritation develops, seek medical advice.

Although this product contains components classified as corrosive and sensitive to skin, due to the high volume of water also present in the formulation, the dilution effect means the classification of the formulation through CLP does not result in the hazards being carried through to the product.

A toxicological risk assessment considers this product unlikely to cause dermal irritation.

##### Eye

This product contains components classified as damaging to eyes. Due to the high volume of water also present in the formulation, the dilution effect means that the classification through CLP does not result in the hazard being carried through to the product.

Nevertheless, should eye irritation be experienced, this effect would likely be transient. But should symptoms persist, seek medical advice.

##### Ingestion

This product is for external use only and should be kept away from children. No adverse effects are anticipated from the formulation via the oral route during normal handling and use.

#### 4.2 Most important symptoms and effects, both acute and delayed

This product contains PHMB which may produce an allergic reaction.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treat symptoms as they occur

---

### SECTION 5: Firefighting measures

---

#### 5.1 Extinguishing media

Water spray, carbon dioxide, dry chemical and foam are compatible with the product. No unsuitable extinguishing media are known.

#### 5.2 Special hazards arising from the substance or mixture

The product is water based, therefore not flammable or explosive.
